

PREFACE - Author's Notes

The "11 Alignment" teleconference channel series began as guidance I received from US to gather people on the 11th of each month during 2009. When 2009 is added up, it equals 11. The number 11 is a "Master number". Master numbers carry strong vibration that give us more awareness of what is happening around us. They are the catalyst for greater learning and assimilation of energies and vibration of the Oneness and our relationship to that Oneness as we move out of duality.

The purpose for gathering people on the teleconferences was to provide information that would facilitate the anchoring of this "Mastery" energy through their bodies for use in their every day lives: to think, speak and act as a Master (See Appendix 1 for description of a "Master"). The gatherings were to provide them with an awareness of an alignment of universal/cosmic energy that humanity is now receiving. In being conscious of that receiving, we are able to amplify it for greater and more beneficial application in our lives, thereby creating more ease and grace. As a result, we experience much less struggle because it connects us with our truth from within that "knows" no boundaries or limitations to our true magnificence and our power.

The first channel on January 11th was interesting as I forgot to turn on the digital voice recorder, so there was no audio version of the original channel. I had to request the participants on the call to send me notes on what they heard. (I do not remember the words when I channel as it is more like being in a dream for me and dissipates quickly afterward). I am always filled with joy and awe to hear what I channeled and to apply the words and activations in my own life as well.

We always have a discussion after each channel for participants to share their experiences. Even though their shares are quite individual, invariably it stimulates someone else's awareness that something similar was happening for them. As they talk about it, the energy and knowing is anchored for the group as a whole.

Thankfully, my friend Marlow in British Columbia was able to compile the responses we received from the participants and put it all together in a somewhat cohesive and comprehensive version of the original channel, so it will read a bit differently than the other channels.

Each month, the channel has its own theme and flavour and feels very empowering as you read it. You will actually feel the energy as though you were right there in the moment. I love how US is able to communicate their wisdom in such loving, supportive and very interesting ways. They are truly Masters.

Much has been said about the New Age/the New Earth. Well, we are there and right now is unprecedented in history. This is a time when we, the human family, are opening up to a new level of awareness, consciousness, and sensitivity and participating in our own spiritual evolution.

This is a series of channelled teachings that serves to describe and communicate the changing nature of our times. They are presented here in order to shed light on some of the tumult of the dynamic, year 2009. We are ever reminded that all is in accordance with the Divine Plan and that each of us has a unique and pivotal role to play in its unfoldment. This book brings you clarity on what that role is for you.

You will love the feeling of the vibrations as you start to read each channel and will want to just keep on going, though I do suggest after you have read the book completely, go back and read each channel one at a time, and then just sit with it as a lot will be happening in your energy field and awareness. As you read the words (or listen to the audios), you will get it at a deeper and deeper cellular level each time. You will be giving your body the "physical" experience of what it feels like to be Divine, and the more often you can do that, the more it becomes the default or automatic pilot program that you operate from. Instead of operating from the common feelings of the denseness and fear, your life becomes a JOYFUL journey that you will look forward to each day.

I am grateful and honoured to have US as a presence in my life. I move forward with complete trust and knowing that we are all to be of service in ways that we could not ever have imagined!
